

TRUSTEES' MEETING

**WILL ATTEND FLOWER SHOW—
FAVOR BOULEVARD LIGHTS—
ABANDON THE WORK ON
EIGHTH STREET**

The regular weekly meeting of the board of trustees of the City of Glendale was held in the city hall Monday evening, April 4, 1916. Present, O. A. Lane, chairman of the board, and Trustees Chas. Grist, J. S. Thompson, A. W. Tower and Geo. Williams. Also present: T. W. Watson, city manager; J. C. Sherer, city clerk; W. E. Evans, city attorney; H. B. Lynch, manager Public Service department; G. B. Hoffman, treasurer; A. H. Lankford, fire marshal.

The minutes of the last regular meeting held March 27, 1916, and of the adjourned meeting of March 28, 1916, were read and approved.

An application was read from Dr. J. E. Echols of Casa Verdugo, requesting permission to carry a gun and also act as a special policeman for the City of Glendale. The application was accompanied by a recommendation from City Manager Watson that the same be granted and that Dr. Echols be appointed Deputy City Marshal. Upon motion of Trustee Grist, action was taken in accordance with the request of the application, and Dr. Echols was appointed special Deputy Marshal of the City of Glendale.

A committee from the Glendale Garden society headed by the president of the society, Mrs. Nanno Woods, appeared before the board and presented a diagram to the Trustees showing the plan for the floral display which the society proposes to make on April 20th, 21st and 22nd. Mrs. Woods explained in detail the plans for the proposed exhibit and presented an invitation to the city trustees to be present on the opening night and assist in the opening ceremony. On motion of Trustee Tower, the invitation was accepted.

Mr. Pfister presented a petition signed by property owners on Colorado street between Glendale avenue and Central avenue, requesting the installation of an ornamental lighting system on that street between the streets named. Mr. Pfister addressed the board in support of the petition, and upon motion of Trustee Grist, the same was referred to the manager of the Public Service department to report at the next regular meeting.

The reports of Building Inspector, City Clerk, City Recorder and Health Officer were read and ordered filed. The manager of the Public Service department made a brief report as to the work of his department.

On motion, Ordinance Number 290, "An Ordinance of the Board of Trustees of the City of Glendale abandoning proceedings heretofore taken under Ordinance Number 287 for the laying out and opening of Eighth Street in said city," was ordered to be taken up for third and final reading, and upon being read, was on motion of Trustee Tower adopted.

The city attorney made a report to the effect that the Pacific Electric Railway company is putting in crossings on Brand boulevard at First and Doran streets, which are not in accordance with the established city grade. On motion of Trustee Grist, the city engineer was instructed to notify the Pacific Electric Railway company to remove any improvements of intersecting streets on Brand boulevard which are not in accordance with the specifications for the improvement of Brand boulevard and the intersecting streets.

The city tax collector presented the tax books and account closing up the tax year of 1915, which after examination by the Finance committee, was approved on motion of Trustee Thompson, and the tax collector discharged from responsibility for the same.

The following bills, previously referred to the Finance committee, were allowed:

Hugh Cornwell	\$ 24.50
City Treasurer, pay roll	940.46
Crane Co.	11.98
Ducommun	10.08
Glendale News	6.00
Madsen Iron Works	6.14
H. Mueller Mfg. Co.	116.62
Pacific Coast Sepec Co.	133.77
Public Service Dept.	634.00
Public Service Dept.,	
Pay Roll	2026.00
Union Hardware Mfg. Co.	14.86
Warren & Bailey Mfg. Co.	29.11
Western Electric Co.	334.42
Zellerbach Paper Co.	1.22

Mr. and Mrs. Charles F. Parker of North Central avenue were among the many Glendale baseball fans as well as the 16,000 persons who attended the first game of the season yesterday.

LAUNDRY RATES LOW

**GLENDALE LAUNDRY AND
SOUTHERN CALIFORNIA
HAVE NOT ADOPTED
WAR RATES**

W. E. Hewitt, proprietor of the Glendale Laundry, says that all over the United States there has been an increase in laundry rates on account of the war in Europe. "Glendale Laundry, however," said Mr. Hewitt, "has not put up its prices and Southern California generally has remained at the old rates."

"San Francisco has had two advances in laundry prices recently and so has Chicago and many of the midwest cities. In a recent communication from Kansas City I learn that rates have been advanced as follows: "Silk shirts, fifteen to twenty cents."

"Plain shirts, a half-cent increase. "Small items of flatwork, slight increase."

"The reason for this is because dyes, metals, chemicals and cloth materials have gone up rapidly in price."

"Take for instance the matter of bluing. Fifty pounds of blue cost \$2 last year. It costs \$12 now."

"Marking ink has increased in price from \$4.50 to \$7.50 a quart."

"Kraft paper has increased from \$4 to \$7.50 per hundred pounds."

"Fuel oil has increased considerably as every one knows."

"Chip soap has climbed from five and one-half cents to seven cents a pound, and the average laundry uses 1800 pounds of chip soap a week. Twine has increased from 16 to 22 cents. Gasoline has risen enormously. One firm paid \$15,535.80 more for supplies this year than it did for the same amount of stuff last year."

"These rises in price are affecting every laundry in Southern California but there has been no rise such as San Francisco found it necessary to impose. There seem to be no limit to the increase in prices and if the war should go on for another year as it threatens to do there is no doubt that everywhere laundries, like other establishments, must raise their prices."

"The Kansas City authority of which I have already spoken says: 'The laundries would have to go out of business at the present rates. Our increase in prices won't add ten cents a week to the average housewife's bill. It means, however, a credit or debit balance to our ledger.'"

PROHIBITION BILL FAVORED

To Congressman Randall of this district belongs the honor of securing the first favorable report on a prohibition measure during the present session, in either the House of Representatives or the Senate. His bill to prevent the sale or service of liquors in all National Parks has been recommended for passage by the Committee on Public Lands. Safety for automobile parties is a strong argument for this law.

The amendment for national prohibition by Webb and Gallinger was postponed until December by the House committee. Randall is now working to get a favorable report for his bill prohibiting use of the mails for liquor advertising.

REV. W. R. SLOAN ARRIVES

The Rev. William R. Sloan, husband of Mrs. Coral Harrison Sloan, who was so badly injured in a recent auto accident, arrived in Glendale last night, having started to come home the moment he received notice of the auto accident. At the time of the accident Mr. Sloan was occupied in evangelistic work in the oil field of Northern California, in the Coalinga section, many miles from telegraphic offices or other means of communication.

P. E. O. STATE CONVENTION

The State P. E. O. societies meet in convention Thursday and Friday this week at Pomona. The Glendale delegates from Chapter L are Mrs. Frank Campbell and Mrs. Lyda Border. Those from Chapter B. A. are Mrs. Eva Cunningham and Mrs. E. H. Willisford.

HALF-SECTION HOMESTEADS IN CALIFORNIA

It is not generally known that homesteads of 320 acres may now be taken in various parts of California, but such is the fact. Congressman Randall, at Washington, is supplying maps of these areas to all applicants.

WEATHER FORECAST—Fair tonight and Thursday; northwesterly winds.

EIGHTY SUSPECTS ARRESTED IN JUAREZ

**VILLA AND DIAZ SUPPORTERS DISCOVERED IN PLOT TO
CAPTURE MEXICAN CITY**

(Special Service to Glendale Evening News)

EL PASO, April 5.—Eighty arrests were made in Juarez this morning, in addition to those already in jail, of suspects in the plot against the city. Information was given the civic authorities some days ago to the effect that supporters of Villa and Diaz, resident in the border city, had concocted a plot to seize the place. The representatives of Carranza immediately seized the principal plotters and broke up the conspiracy.

TEUTONS SINK THREE MORE SHIPS

**GERMAN SUBMARINES TORPEDO ONE BRITISH, ONE
SPANISH AND ONE NORWEGIAN VESSEL**

(Special Service to Glendale Evening News)

LONDON, April 5.—One sailor is dead as the result of the torpedoing of three merchantmen by the Germans during the past 24 hours. The vessels thus sunk were the British steamer Bendow, the Spanish steamer Vigo and the Norwegian vessel Arena. The Norwegians are indignant at the number of their vessels that have been sunk by the Germans.

PROTECTING AMERICAN COMMUNICATIONS

**UNITED STATES LINES IN MEXICO ARE DEFENDED BY
TRENCHES—BANDITS SWARM IN THE HILLS**

(Special Service to Glendale Evening News)

COLUMBUS, N. M., April 5.—Trenches have been dug at intervals along the line of communications that connects the American outposts in Mexico with their base in the United States. American soldiers who have returned with the auto trucks from the front state that Mexican bandits are swarming in the hills and that there is a great deal of futile sniping along the road to the front.

ORDERS MORE TRANSPORTATION FACILITIES

**SECRETARY-OF-WAR BAKER WANTS 130 ADDITIONAL
AUTO TRUCKS FOR SERVICE IN MEXICO**

(Special Service to Glendale Evening News)

WASHINGTON, D. C., April 5.—It was reported here today that considerable difficulty was being experienced in getting supplies and ammunition to the front in Mexico, on account of the lack of means of transportation. Secretary Baker, it is understood, today ordered 130 additional automobile trucks to be sent to the border for this purpose.

NAVAL SKIRMISH IN THE NORTH SEA

**BRITISH TORPEDO BOATS HAVE BRUSH WITH GERMAN
SQUADRON THAT VENTURED OUT FROM BALTIC**

(Special Service to Glendale Evening News)

COPENHAGEN, April 5.—Passing out from their hiding place in the Baltic sea a strong German naval squadron steamed into the North sea this morning. They were immediately perceived by British torpedo boats and engaged. After a brisk skirmish the Germans retired again.

BIG JAPANESE LINER SPLITS ON ROCKS

**FAMOUS TRANSPACIFIC CHIYO MARU BREAKS HER BACK
OFF THE CHINESE COAST NEAR HONGKONG**

(Special Service to Glendale Evening News)

SAN FRANCISCO, April 5.—The Japan Mail Steamship company's big liner, Chiyo Maru, one of the best-known of the trans-Pacific boats, split in two this morning on the rocks off the China coast, not far from Hongkong. It is announced that there is no hope of salvaging the vessel. The loss is estimated at \$5,000,000.

FIERCE AIR BATTLES ABOVE VERDUN

**FIFTEEN ENCOUNTERS BETWEEN FRENCH AND GERMAN
AVIATORS RESULT IN TEUTONS LOSING TWO PLANES**

(Special Service to Glendale Evening News)

PARIS, April 5.—Fifteen battles took place recently, between French and German aviators over Verdun, according to an official announcement today. Two of the German aeroplanes were shot down. The French forces have further consolidated their gains in the Caillette wood. The French have also consolidated their positions at Nautillon and Danvilliers.

GERMANY WILL RESPECT MONROE DOCTRINE

BERLIN, April 5.—Speaking in the reichstag this morning Imperial Chancellor Von Bethmann-Hollweg said that the kaiser did not contemplate any violation of the Monroe doctrine.

PROPOSITIONS ON CITY BALLOT

**CITIZENS' WELFARE ASSOCIATION PRESENTS EXPLANATION OF
THREE QUESTIONS TO BE PRESENTED FOR DECISION OF
VOTERS AT NEXT MONDAY'S ELECTION**

TO THE VOTERS OF THE CITY OF
GLENDALE:

There are three propositions on the ballot to be voted on at the next election on Monday, April 10th, 1916.

The first proposition is for the annexation of a section northwest of the city, designated the "Remington Street Annexation District." The people residing in this district have heretofore voted by a large majority to come into the city, and it is now necessary under the law, in order to annex the district, for a majority of the voters of the city to vote in favor of its annexation. This section is densely built up with beautiful homes occupied by desirable citizens and will add to and greatly benefit our city in its growth and progressive course finally to a bigger and greater Glendale. By voting in favor of annexing this district, you will comply with the wishes of a majority of the people of the district and will enable them to receive all the advantages of municipal government, including police protection and a great reduction in the cost of service of public utilities. It is difficult to understand why certain ones of our citizens oppose the annexation of this district. We do not believe that any good reason can be offered why it should not be annexed. We should vote YES on the proposition.

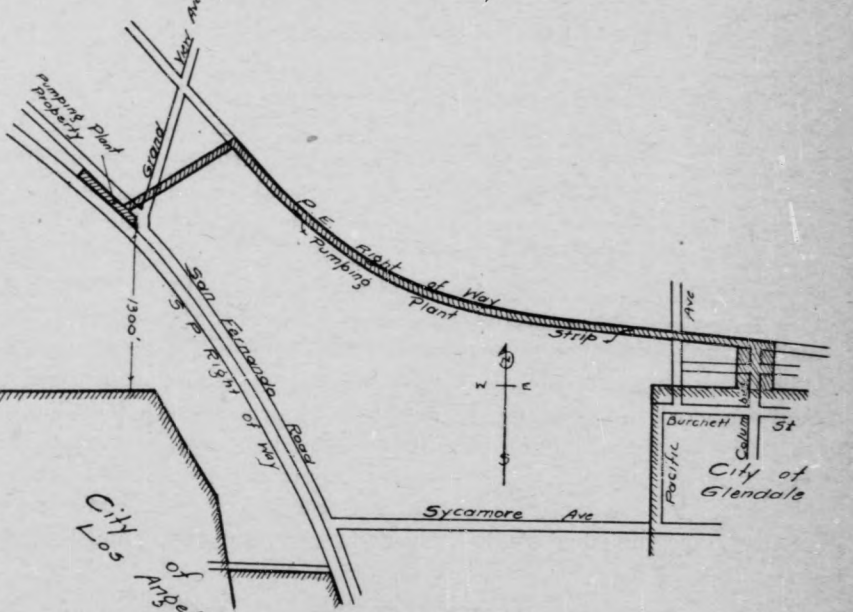

The second proposition is for the annexation of what is called the "Pumping Plant District." It embraces a small strip of land running from the westerly boundary of the city to and includes the city's pumping plant and property on the San Fernando Road, the sole purpose being to annex the pumping plant lot. There are now three wells on this property, also pumping outfit, engine and equipment. It will be necessary to make other improve-

ments on the property located within its border, when practicable. The annexation of this strip of land causes no detriment whatever.

We are informed there is a campaign being waged against the annexation of this district by certain citizens who were opposed to the city purchasing the plant, and who are now of the opinion that if the city should fail to vote in favor of annexing it, the contract for its purchase would thereby be cancelled. This is erroneous. The contract for the purchase of this property will be unchanged by the result of the vote on the proposition. The city purchased the property under an annual installment contract and has made one payment of about \$5,000 and has put down wells costing about \$5,000, making a total investment at the present of about \$10,000.00. The annual payments are being made out of the income from the water department, and with the exception of the \$5,000.00 expended for putting down the wells, nothing has been or will be paid on this contract from any other fund. The city purchased a part of its present lighting system under the terms of a contract exactly the same, which contract has been completely carried out and consummated.

A report is being circulated that this property is located in the City of Los Angeles. There is absolutely no truth in this statement, as reference to the accompanying map will show.

We can see no good reason why anyone friendly to the continued growth and development of the city's public service department should vote against this proposition. A great number of the cities of Southern California have annexed shoe-string strips of territory for the purpose of protecting their property. In our opinion, it is to the best in-

terests of the people of the city that this proposition prevail.

The third proposition is whether or not the city shall be reorganized as a Fifth Class city. Those who know something of the relative powers and privileges of fifth and sixth class cities, should have no trouble in voting on this proposition. The law governing fifth class cities is antiquated in form and has almost become obsolete in use. It has been the custom for years for the cities to change from the sixth class to a chartered city. As a consequence, general laws governing fifth class cities have lain dormant, and have not been amended from time to time as has been the case with the laws governing sixth class cities. The change to a fifth class would be a step backward and as disastrous to the best interests of the people of Glendale as it would be to follow the advice on many other city government matters of those who are urging it.

By all means, you should vote against such a change.

CITIZENS' WELFARE ASS'N.
C. J. WOLFE, Secy.

MISS BONNELL'S CONDITION

Dorothy Bonnell, who suffered a basal fracture of the skull and the fracture of one of the cervical vertebrae and the displacement of two others, is reported to be in a rather more favorable condition although she has not regained consciousness. Mrs. Coral Harrison Sloan is progressing quite favorably. Her three broken ribs are mending.

OFF TO POMONA

There will be a large attendance at the Woman's Missionary Society of the Congregational Church of Southern California today, at Pomona. Important matters in addition to the routine business are expected to come up. Among those who are attending from Glendale are Mrs. H. E. Bartlett, Mrs. Lillian E. Dow, Mrs. Minnie Patterson and Mrs. E. H. Willisford.

GLENDALE, CALIFORNIA, WEDNESDAY, APRIL 5, 1916

REIGN OF WOMEN IN BRITAIN

After the war is over, according to an English authority, the women of England will have a great deal to say about running the country. They are determined to get the franchise and if they do they will go far toward having political control. Before the war broke out there were 1,000,000 more women in England than men. The suffragettes must now have a still greater majority. They have also a much stronger position than before the war. They have gradually invaded every position occupied by men and they argue that as they have showed themselves so efficient they are entitled to the vote.

As a matter of fact the women of Britain are doing work that formerly men alone were supposed to be able to do satisfactorily. In many instances they are doing it better. The country, too, is begging for their help. Munitions making also is largely in the hands of the women. They are rapidly taking over the positions of men in the street cars and omnibuses. They are running elevators and acting as ticket sellers and choppers. A woman's army is being recruited to do England's farming. Women clerks are behind the counters of the retail stores of all kinds. Women chauffeurs are numerous and women are running delivery wagons.

On the European continent this drafting of women has been far more general than in Britain. On the continent, however, there is no corresponding effort on the women's part to get value received for their wartime help, in the form of subsequent political recognition.

After all that women have done during the war it is difficult to see how the British political leaders can refuse them recognition. It is practically certain that they will receive a respectful hearing when they present their claims next time, instead of the contemptuous dismissal their efforts met before the great European struggle.

The suffragette representations are making a profound impression on the rank and file of the country's voters. The next demand for suffrage, therefore, it may be stated, will be no mere dilatory movement. It will come from women who, having borne the burden and heat of the war just as much as the men, will expect recognition on the basis of equal service and equal capacity. It would be quite surprising if they should fail to get it. On the other hand if they do get it the women of England will control the government of the country.

As has been said, before the war there were one million more women than men in the British isles. After the war between the losses of men in the field and the expected heavy emigration, which will be largely of young, unmarried men, the disproportion will probably be increased by another million. That means the advent of the reign of woman foreshadowed in the works of many modern writers.

VALUABLE PACIFIC COAST INDUSTRY

All along the Pacific coast lie vast beds of giant kelp. For centuries it has been known that this kelp is a valuable fertilizer. In the older countries it has been collected all through the centuries and utilized for this purpose. In the rain-soaked and peat impregnated soils of the Scotch highlands and the bog lands of the western coast of Ireland kelp has been the only means the natives have had of restoring to the soil the products taken from it by the crops.

Now it has been discovered that it is possible to extract a valuable supply of potash from the giant kelp beds of the Pacific coast. Plants for this purpose are being erected everywhere on the coast and the work of producing potash is being prosecuted. It is likely to prove highly remunerative. The beds of kelp were recently surveyed by the Bureau of Soils and a report accompanied by maps showing their extent and location was recently issued. Harvesting is easily accomplished as the kelp grows in open water and barges fitted with moving attachments can be used.

For utilizing the kelp several methods are feasible. It may be dried and ground. In this condition it contains all the salts originally present, which are mainly potassium chlorid and sodium chlorid. This material has ideal mechanical properties for use in mixed fertilizers. When the pure potassium chlorid is desired, it is necessary to separate the juice from the organic material, and then to remove the sodium chlorid. This is done by recrystallization; but the separation of the juice from the organic material is more difficult.

Three large concerns some time ago began operations for the manufacture of potash from kelp. Recently there has been a large influx of capital into the business and several other manufactories have been scattered all over the coast the most recent being at San Diego where there are very large beds of the giant kelp. The eagerness of capital to embark in this business is not only because the potash is valuable as a fertilizer but because it has an enhanced value at present for use in the manufacture of munitions.

Only recently was an attempt made to aid this valuable industry. For a long time there was no provision for leasing the kelp beds and that held back private enterprise. The United States department of Agriculture, however took up the matter and the use of the kelp beds is now to be regulated by law.

Most of the plants recently erected have special machinery for the drying of the wet kelp and for effecting the ready separation of the plant juices from the organic material. When the supply of kelp is properly handled it should be possible for this country to be independent of foreign sources for its supply of potash. This should be the more easy when the alunite, feldspar and lake deposits are properly exploited.

After unprecedented efforts the American advanced cavalry force consisting of about 400 picked troopers has reached within fifteen miles of the Villa command. It is doubtful, however, if Villa is there. That astute leader is reported to have got away from the dangerous territory some time ago and is credited with plotting an uprising against the Americans. Meanwhile it is reassuring to learn that Gen. Obregon remains faithful to Carranza and peace and order.

SCOOOL AND CAMPUS

GLENDALE WINS FROM SOUTH PASADENA AT BASEBALL—INTEREST IN ORATORICAL CONTEST

In a game featuring to some extent the abilities of two strong contenders of the County League, Glendale won Saturday morning from South Pasadena by a score of 5 to 3. The game up to the seventh inning stood 2 to 2 with Lupus having the better of the pitching. South Pasadena weakened and, staging a "lucky seventh rally" Glendale sent 3 runs across the rubber. The team is fast rounding into shape and with a bit more practice we will finish high up on the slate.

Oratorical Contest

Everyone is at present absorbed in plans for the big Annual Interclass Oratorical contest, which will take place Friday night, April 7. This is undoubtedly the biggest and best event of the High School term. The first speaker will be Robert Carmack, the Freshman contestant, who will speak on "Boy Scouts." The 1916 representative, Miss Ethyl West, will be the second speaker. Her subject is "Vocational Education in California Schools." The third speaker will be Dan Hagin, of the Junior class, whose subject is "The Independence of the Philippines." The last speaker, Marion Lehman, the Sophomore contestant, will speak on "Preparedness."

It is said that this year's contest will be more exciting than those of previous years, as the speakers are quite evenly matched. All the orations are splendid, and the contestants are excellent speakers.

Between practicing songs and yells, and making costumes for the affair, all the classes are very busy. From rumors that are floating around we should judge that the booths will be most decidedly spectacular.

Student Body Election

During the past week, many nominating petitions have been handed in. The petitions for all candidates must have fifty signatures and be in the hands of the secretary of the Student Body before Friday afternoon.

The candidates for the various offices are:

For Speaker—Marion Lehman, Ed Seay.

For Vice President—Paul Williams, William Balthis, Howard McGillis.

For Secretary—Harold Freeman.

For Treasurer—Lehman Crandall, Jeannette McLennan, Aileen Freeman.

For Senators (5 to be elected)—Mildred Wight, Fred Dodge, Walter Beach, Fannie Hagin, Harlan Durand, Earl Brown, Milton Brown, Emma Lee Burton, Margaret Lusby, Thomas White, Herbert Schueiner.

Executive Committee (7 to be elected)—Howard McGillis, Carlton West, Don Phillips, Robert Carmack, Lyndon Keyes, Wilfred Long, William Taylor.

Yell Leader—Harry Glazier.

An amendment to the constitution has been passed, providing that all Student Body officers shall be elected twice a year, at the beginning of each semester, instead of once a year.

Interpretation Contest

A great deal of interest has been shown in the reading contest which will take place Friday, April 14. All the class tryouts were held last Friday afternoon. All the readings were given very well and the interclass contest promises to be a splendid one.

The results of the tryouts are as follows: Senior representative—Rachel McClure. Junior representative—Evangeline Quackenbush. Sophomore representative—Opal Feaster. Freshmen representative—David Johnson. Mr. Faries has provided for a scholarship trophy, on which the numerals of the classes winning interclass debating, interpretation and oratory will be engraved. 1916 say that they will have their numerals on for three championships.

General Notes

Carlton West and Bill Balthis will go to the Ojai Tournament as representative of Glendale High. They will leave tomorrow.

Hasty Bidwell, Gwendolyn Clafin and Josephine Starr, all of the class of '15, visited school yesterday.

USE ALL OF YOURSELF

Great men put the whole of themselves into their undertakings. You cannot fancy that while Browning was writing "The Ring and the Book," he was trying to decide where to spend his next vacation. The great musical compositions which thrill you, the noble paintings before which you stand enthralled, all demanded an undivided purpose. If genius needs to put all of itself into what it undertakes, mediocrity certainly must not be satisfied with less. Wesley's rule was, "All at it, and always at it." No man who makes his mark, works with less than all his powers.

ODD-SHAPED HOTEL

One of the architectural curiosities of an Eastern city is an apartment hotel sixteen stories high, which has been built on a plot of ground twelve feet wide at one end, and fifty at the other, while the length is 190 feet. Every room in the building has an abundance of windows.

Assistant Editor—We had to run in the last installment of Betty Bodikin's article on the Rotter divorce case.

"Oh, well! Why didn't you say so? I thought you had held it up for news."—Life.

THE JOY OF OVERCOMING

Easy work is never as enjoyable as that which is hard. There is a joy in overcoming difficulties, a tonic in conquest. If you never try any work you are not sure you can do, you miss the supreme satisfaction of winning out, when the odds are against you. Do not content yourself with the easy task that puts no strain on your powers, for you will gain neither strength in doing it, nor satisfaction in completion.

On February 2 the price of hogs in Chicago touched \$8.90, the highest price in 16 months. There seems to be no telling what to count on in pork prices.

Personals

Mrs. Eliza Zerr will entertain the X. V. I. club at her home, 1413 Cedar street, Saturday afternoon.

Mr. and Mrs. R. W. Meeker and Judge C. F. Parker attended the Republican banquet at Hamburger's Cafe, Tuesday evening.

Mrs. Frederick Baker and Mrs. Leighton, as guests of Mrs. R. W. Meeker and Miss Leighton, members of the Reciprocity club of Los Angeles, motored to Hotel Mt. Washington in the Meeker car Tuesday, where they attended the club luncheon.

The Alumni Association of the Glendale High School will hold a meeting at the High School auditorium Thursday evening, April 6, at 7:30 p. m. A large attendance is requested, as it is the first rehearsal for the play which they expect to give in the near future. As there are still a few parts open the director would like more material.

Mrs. Ella D. Richardson of 805 South Central avenue, accompanied by her daughter, Miss Eula Richardson, and sons, Paul and John Richardson, will motor to Corona Friday afternoon, where they will be the guests of Mrs. Richardson's niece, Mrs. Flora Delphay. Mrs. Richardson and family will also attend the automobile races which will be held in Corona Saturday.

Mrs. W. W. Hamilton of West Tenth street was the guest of Miss Cora Hickman at a meeting of Eschscholtzia chapter, Daughters of the American Revolution, Tuesday, which was held in the Ebell club house. A fine musical program was one of the delightful features of the meeting, which preceded the dainty tea at which Mrs. Leon Hurt, of Los Angeles, formerly of Glendale, presided.

Interesting meetings will be conducted in the Alliance Chapel, Louise and Chestnut streets, beginning Saturday, April 8, and continuing until Tuesday, April 11. Two noted speakers will be in attendance, Dr. Charles H. Blanchard, president of Wheaton College of Wheaton, Ill., and Dr. Robert H. Glover, who has but recently returned from the Orient. Dr. Glover will illustrate his talk with stereopticon views, which will accentuate the splendid lectures with which he will speak of his years spent in the Orient.

The members of the P. T. A. are proud of the citizens of Glendale in their unanimous support of the candidate they selected to place upon the Grammar School board at Friday's election. Mrs. Toll is so well known and universally respected in her judgment of school and educational affairs that her nomination was virtually her election. Yet we urge the voters to go to the polls on Friday and give her a large vote that we may show our approval and pay her a compliment.

Carl Anderson, son of W. A. Anderson, contractor, 407 Isabel street, who suffered the amputation of his left leg, as the result of a fall from his bicycle, some time ago, is now at the Loamshire hospital, Princeton street, Santa Monica. He is rapidly recovering from the effects of the blood-poisoning with which he was affected. He is cheerful and with the exception of a slightly high temperature, natural under the circumstances, he is in excellent condition. He expects to be able to get home again in time for Easter.

DEATH OF MISS ROSE M. KINNEY

The death of Miss Rose M. Kinney occurred at the residence of her cousin, Mrs. W. R. Alexander, 322 Blanche avenue, Tropic, April 5, 1916. Formerly of Oberlin, O., and Atchison, Kansas. Funeral services will be held at Scovern-Letton-Frey Undertaking company's chapel, Tropic, Friday, April 7, at 2:30 p. m. Interment in Forest Lawn cemetery.

FIRE DESTROYS BROODER HOUSE

An alarm of fire was turned in this morning at 9:30 o'clock, by H. H. Beede, to the Glendale Fire department. The fire was found to have broken out in a small brooding house belonging to F. R. Siff, at the corner of Stocker and Pacific avenue. The brooding house, with its young chickens, was entirely destroyed, and when the fire department arrived it confined its attention, to seeing that the fire was confined to the chicken house. There was some danger that the big barn might catch fire, but as there was no wind that was easily prevented. Had the big barn caught fire the house would have probably gone next. As it was the chicken house fire was easily confined to that building by the use of the garden hose. Assistant Fire Chief E. Schroeder answered the alarm and drove the fire engine. He was accompanied by Charles Potter, George Potter, O. W. Tarr, Jesse Flower and E. Coker. Fire Chief Lankford arrived on the scene on a motorcycle.

LUTHERAN MISSIONARY SOCIETY

The Ladies Missionary Society of the English Lutheran church is holding its monthly meeting at the parsonage, 340 South Central, Thursday at 2:30. All members and friends are expected to be in attendance. A good meeting for all.

TROPICO

With a charming and gracious hospitality, characteristic of them, Mr. and Mrs. W. H. Van Hazelen entertained with a dinner party at their home on West Park avenue, Monday, as a happy reminder of their twenty-fifth wedding anniversary.

The table was centered with a vase of Maman Cochet roses, lending a delicate fragrance. Covers were laid for twenty-one, and those who were seated with Mr. and Mrs. Van Hazelen included Mr. and Mrs. Henry De Young of Chicago; Dr. and Mrs. A. Bonthius, Miss Ruth and Miss Dorothy Bonthius of Pasadena; Mr. and Mrs. D. H. Gerritsen, Mr. and Mrs. A. G. Gerritsen, Mr. A. D. Gerritsen, Mr. and Mrs. John Vernard, Miss Maggie Vernard of Los Angeles, Miss Jeannette Meurs of Wilmar, Miss Adah Van Hazelen, Miss Mabel Van Hazelen and George Van Hazelen.

The guests, with the exception of two, were former residents of Chicago and friends of Mr. and Mrs. Van Hazelen during their residence in the windy city.

Mrs. Will A. Harris of Los Angeles, widow of Hon. Will A. Harris, the silver tongued orator, was the guest of Mrs. Francis Booth at a daintily appointed luncheon at the Booth residence today.

Mrs. L. H. Humphrey, who is a recently returned missionary from India, will deliver a talk on Japan in the Nazarene church Friday afternoon. This talk is for women only and all who are interested in missionary work and the foreign missions are urged to attend.

EVANGELIST AND SINGER MOVE MANY AT METHODIST CHURCH

Evangelist, Ireland was "on the job" again last night, at the First Methodist church. His indisposition has passed away and he is feeling himself again. His message last night was direct and telling. The evangelist made it brief, but while he was giving his message he found his way to the hearts of the people.

Last night Mr. Ireland spoke on the theme, "What Shall I Do With Jesus?" You may turn him down and thereby cry with the Jews of old "Crucify him, crucify him!" One thing is sure, you cannot dodge the issue. It is up to you. Don't blame the preacher or the evangelist. They did not create the issue. The happiness and usefulness of men depend upon what they do with Christ. People worry about the questions, What will society say if I become a Christian? What will they say at High School? What will they say at the club? But that is not the question, the question is, "What will you do with Jesus?" Stiffen your back bone and answer this as you would any other honest question.

The evangelist and Mr. Todd, the singer, make a great team. Mr. Todd is winning the hearts of the people by his genial, happy way. He inspires the people to sing. His solo work is individualistic. It belongs to the man.

The interest last evening showed that the Mission is making itself felt. Mr. Ireland will preach to night. Mr. Todd will sing.

At ten o'clock each morning a Bible reading and prayer service is held at the church. Tomorrow this service will be held at 2:30 p. m. in connection with the W. H. M. S. service.

People have to purchase and Geeser was wise—for he knew the way to get 'em was to advertise.—Associated Advertising Magazine.

FOR EXCHANGE

27 acres, fixed up fine for bottle dairy; 20 acres of alfalfa; 23 large Fig trees, 21 large paper-shell Walnuts; apricots, peaches and berries; good 6-room house, fine out buildings; 18 H. P. pumping plant, windmill and tank for house use; everything up to date; three miles to town of 3000 pop., Madera, Cal. Price \$12,000; want Glendale or Burbank acreage or residence property. Stock and tools go with the place.

GLENDALE FOOTHILLS

Daniel E. Fuller of Kenneth road says that it may profit all loyal citizens of and residents of Glendale and its vicinity to read what at outside fruit authority says of this city and district. He sends the quotation, which he heads:

Glendale First

"According to Eastern citrus market quotations of April 2 Glendale lemons sold by the California Fruit-growers' Exchange reached the highest price quoted, which speaks well for Glendale lemons and the Exchange."

Mrs. Hattie E. Gaylord completed last week the organization of a Woman's Christian Temperance Union, which will embrace the Foothills district and be known as the "North Glendale W. C. T. U." The first regular meeting of the Union was held Tuesday afternoon at the home of Prof. Howe, 1546 Burchett street. The following officers were elected: Mrs. Mary C. Mandery, 1421 Pioneer Drive, president; Mrs. Margaret Stevenson, 1464 Burchett street, vice-president; Mrs. Pearly Howe, 1546 Burchett street, treasurer; Mrs. Florence Rathbone, 1623 Burchett street, recording secretary; Mrs. Sara G. Wright, 1649 Ruth St., corresponding secretary. The next meeting will be held at the home of Prof. Howe, 1546 Burchett street, Tuesday, April 11, at 2:30. Everybody welcome.

Mrs. C. H. Toll, as usual, sent her auto to meet the forenoon car at the terminus of the North Glendale street car line to bring the ladies who attend the meeting of the Mothers' Reading circle up to her residence. This is a great convenience and is being taken advantage of by many who might otherwise not find it possible to attend. The circle is becoming more popular each week.

STUDENTS' RECITAL

The recital given Tuesday evening by pupils of Norma R. Robbins at Masonic hall was an unqualified success. Glendale music lovers seldom find such a combination of youth, beauty and lovely voices. The students had poise and confidence, which is gained only by good musical discipline and appearing in numbers of pupils' recitals.

Miss Zetie Duncan was a most charming doll, in "Tales of Hoffman," and the E flat in altissimo was as easily done as the E below. Miss Margaret Atwater in Cadman's songs and the "Butterfly Aria" was an artist and her pianissimo shows remarkable voice control for so young a singer. Mrs. Gladys Gibbs Sherman was a delightful shepherdess and the "Jocelyn Berceuse" was sung with much sweetness and expression.

Miss Harriet Welch of Long Beach has a rich, sympathetic voice and her appearance is most pleasing. Miss Gertrude Hersey, a contralto from Riverside, sang Ronald's "Night" and though suffering from a cold made an instant impression.

Miss Rachael Smith has a most lovely voice and although she too is recovering from a bad cold, sang Roger's "Star" and "A Spring Flower" by Campbell Tipton, very pleasingly. Miss Margaret Mathes, a coming soprano, gave evidence of splendid quality in Ronald's "Sunbeams." Miss Blanche Fowler, also a clever impersonator, who has given Glendale audiences much pleasure, has a beautiful velvety contralto, which she used with great skill in the "Lullaby" and in the Carmen "Habanera."

The trio from "Carmen" was well acted and well sung by Mrs. Sherman, Miss Duncan and Mrs. Robbins, the latter taking the part of "Carmen" in the tragic "Card" solo, which suits her full contralto admirably. The six concerted numbers were very attractive to the audience, three deep contraltos being marked for their remarkably deep voices, Miss Morran, Miss McKroskey and Miss Evelyn.

The large audience was most appreciative and enthusiastic and the hall was very unique in its decoration and an added charm was in the ushers, members of the Robinette club, Miss Mattiell Provost, Miss Barbara Mitchell, Miss Mills, Mrs. Frank Cross, Miss Viola Yorba and Miss Rachel McClure. These young ladies wore pink dresses with powdered hair and patches. Too much cannot be said in praise of Mrs. Roy W. Master's splendid accompaniments in the "Carmen" trio and for the "Doll's" song. Miss Margaret Mathes is also an excellent accompanist. Mrs. Robbins did the greater part of the accompaniment work and is very proficient, having been a professional accompanist in Boston while studying voice.

W. C. T. U.

Mrs. D. R. Dungan, 829 Lomita avenue, will entertain the Glendale City Union, Friday, April 7. Meeting to begin promptly at 2:00 o'clock p. m. Mrs. Annie Frank will have charge of the program on Literature and Posters. A large attendance is desired to elect delegates to the coming County Convention in Hollywood April 26-27-28. A cordial invitation to everyone.

LITERARY SECTION

The Literary section of the Tuesday Afternoon club met Tuesday at the home of Mrs. C. E. Anderson, 201 North Louise street. Mrs. Higby of Los Angeles reviewed in a most pleasing manner the play "The Man With a Dumb Wife." Mrs. Ramsey, a member of the section, read a story of the Missouri river. The production was of her own composing, and she also read a poem, "What Is the Sweetest Thing." Mrs. Edstrom, sister of Mrs. Anderson, gave a talk on "Irish Lore," which talk was very much appreciated by the large number present.

AUSTRALIAN POSTAL RULE

The Australian postal authorities are trying to stop the "short paid postage" nuisance, by stamping on the back of every "short paid" letter the following: "This letter bears insufficient postage. Please advise your correspondent to inquire for correct rates."

BELIEVE IN YOURSELF

Nothing is more fatal to success than to apprehend failure. While overconfidence has danger it is true, they are far less serious than the dangers which result from not being sure enough. Encourage yourself to believe in yourself, and at the same time, strive to make yourself worthy of confidence.

CHOCTAW FLOWER BASKETS

The Choctaw Indians of Louisiana have sent north an odd consignment of baskets. Among them are some so-called flower baskets intended for porch use. They are 12 inches high, circular in shape and 4 inches in diameter; they have a wide loop with which to hang them up and are woven of white straw plaited in fancy colors. They may be used with dry flowers as they are or one may slip into them a tall glass to hold water. Some of the baskets are dyed Indian red, painted in crude native designs.

CHOKING HIM OFF

Bore—Your face looks familiar. Haven't I seen you somewhere?
Gorem—Very likely; that's where I live. If you ever happen to be in that part of the country again drop in and see me.

PERMITS FOR MONTH

MARCH SHOWS GREAT INCREASE IN BUILDING THROUGHOUT THE CITY

March has always been a busy month in the building line. This year has been no exception. There were 26 permits issued and these included 12 dwelling houses costing from \$1450 to \$2290. The majority of these houses cost \$2000. This is an excellent record. The erection of garages continues. Eight of those necessary annexes to modern dwellings are being erected. The total value of the buildings for March is \$30,990. This is not so large as the record of March last year. That month, however, was swelled in its total by the erection of one garage that cost \$6000 and one dwelling house that cost \$4000.

Neither is the record of March, 1916, equal to that of March, 1914, which attained the very large total of \$30,990. It will be remembered, however, that the I. O. O. F. hall was erected that year at a cost of \$10,000 and there were two other buildings of a value of \$5000 and \$4000 respectively. In that month also there were 41 permits. That is a record month for Glendale. Following were the permits.

A. M. Brooks has contracted with Elmer Elliott for the erection of a dwelling house, at 215 S. Jackson street, at a cost of \$1900.

W. J. Clendenin is himself erecting a dwelling house, at 325 N. Maryland street, at a cost of \$1600.

W. W. Stevenson is erecting at 1460 W. Third street a dwelling house, at a cost of \$1500.

L. E. Brockman is building a garage on W. Broadway, in the alley opposite the Fire house, at a cost of \$1800.

Otto Nelson is building a garage at 1564 Oak street, at a cost of \$30.

Mr. Reassen has employed H. M. Porter and Co. to build a dwelling house at 844 Columbus avenue, at a cost of \$1500.

J. E. Osgood has contracted with Baird and Ranger for the erection of a dwelling house, at 129 Jackson street, at a cost of \$2290.

Mrs. Busch has had erected by George F. Daugherty a garage, at 1441 Oak street, at a cost of \$55.

H. L. McConnell has built a garage at 135 Orange, at a cost of \$100.

L. N. Rudy has made alterations at 108 W. Broadway, at a cost of \$200.

S. Metzger has built a garage at 1456 W. Fifth street, at a cost of \$50.

A. A. Sawyer has erected a dwelling house, at 512 W. Ninth street, at a cost of \$2000.

M. L. Field has contracted with J. N. Withen for the construction of an addition to 420 S. Everett street, at a cost of \$50.

W. H. Ward has a removing job at 234 W. Broadway which costs \$100.

A. W. Lindsley is erecting a garage at 1559 Salem street, at a cost of \$50.

F. A. Tarr has contracted with W. G. Boyd for the erection of a dwelling house, at 1417 Patterson street, at a cost of \$2000.

Miss Frazen has employed A. J. Newhall to build an addition to 111 Belmont, at a cost of \$100.

J. Kranz is erecting a garage at 1028 Fairview, at a cost of \$25.

J. T. Stanford is erecting four dwelling houses at 1530, 1554, 1557 and 1559 Pioneer Drive, at an individual cost of \$2000 and a total cost of \$8000.

G. W. Watson has constructed a store front at 548 W. Broadway at a cost of \$50.

J. C. Bloor has contracted with E. D. Young for the erection of a garage at 120 N. Maryland, at a cost of \$145.

C. S. Steelman is building a sleeping porch at 1104 W. Seventh street, at a cost of \$35.

H. Vemke is building a dwelling house at 407 N. Maryland, at a cost of \$2000.

NOTICE OF STOCKHOLDERS' MEETING

Notice is hereby given to the stockholders of the Bank of Glendale, a corporation, that the Board of Directors of said corporation at its regular meeting held on Tuesday, March 14th, 1916, duly passed a resolution calling a meeting of the stockholders of the Bank of Glendale to be held in the Director's room of the Banking House of said bank, located on the Southeast corner of Broadway and Glendale Avenue in the City of Glendale, County of Los Angeles, State of California, on Monday, May 15th, 1916, at the hour of Four o'clock p. m., for the purpose of submitting to the stockholders of said bank the proposition of increasing the capital stock of said bank from \$50,000.00 to \$75,000.00 and to transact such other business as may properly come before said stockholders' meeting.

You are notified that said meeting will be held at said time and place and for the purposes above stated.

Dated at Glendale, California, March 14th, 1916.

A new buggy or an automobile is sometimes a great encourager of matrimony.

CITY ATTORNEY'S SALARY

To the People of the City of Glendale:—

During the past few months there have been so many false and untrue statements circulated in the City of Glendale with reference to the salary of the City Attorney, and the amount the city has paid for legal services, that I feel it is my duty to make a public statement of the facts as they really are, so that those who wish to know the truth may have that privilege. These are matters of public record, and strictly speaking, I do not feel it is necessary for me to make a statement, but comparatively few people go to the trouble of examining these records and are left to unauthentic reports and rumor for their information.

From May, 1911, to May, 1912, the city paid me \$50.00 per month salary, which amount was not to cover services for court work. From May, 1912, to July, 1914, the city paid me a salary of \$100.00 per month, which was not to include services for court work. From July,

City Attorney W. E. Evans

1914, the city has been paying me a monthly salary of \$100.00, which is to include all court work except in contested cases.

On April 1st, 1916, I will have been acting as your city attorney for five years, lacking one month, or a period of 59 months. For this period the total amount of salary paid me was \$4762.50, and also for extra services for court work, \$3710.00, or a total for salary and court work of \$8472.50. (Certain people are circulating reports that the city is paying me \$8000.00 per year). During this time the city has been involved in twenty-six actions in the Superior Court of this county, four of these actions being carried to the Supreme Court of the State of California. In addition to these twenty-six cases, the city has had before the Railroad Commission of the State of California six actions, making in all thirty-two litigated cases. Some of these actions were pending for more than two years. The outcome in each and every one of these cases, except one, was in favor of the city, and in that one exception a judgment was rendered against the city for \$250.00, and I have reason to believe that this judgment will be set aside and a new trial granted the city. By successfully defending the different actions filed by the water companies for the purpose of enjoining the enforcement of ordinances reducing the rates, the people of the City of Glendale were saved in the two years covered by the ordinances more than \$30,000.00 in addition to compelling one of the companies to return to its patrons about \$3000.00 paid for meter and service connections.

During the time I have been city attorney, the city has had eight actions in the Superior Court for the condemnation of property for street purposes. It takes from one to two years to carry through a proceeding of this kind, and involves an enormous amount of work. The city has never paid me one cent for court work in any of these cases. On the contrary I have furnished the city a stenographer and all the stationery necessary, except in three proceedings. I have paid something over \$50.00 out of my own pocket for stenographic work, stationery and supplies in the opening and widening of one street. I have furnished a stenographer, stamps, stationery and supplies at my own cost and expense during the fifty-nine months I have acted as city attorney. I find that other cities are paying for their condemnation work, and also paying for the stenographic work.

In order that the people may compare what this work is costing them with what it is costing other cities, I wish to state that I have made some inquiry and I find that the cities of South Pasadena and Alhambra (which compare favorably with Glendale in population and amount of work involved on the city attorney) pay as follows: South Pasadena, prior to August, 1914, was paying its city attorney \$160.00 per month salary, and also paying him extra for all court work, including condemnation proceedings. It is now paying the city attorney \$125.00 per month salary, and extra for all court work. Alhambra is paying its city attorney \$100.00 per month salary, and extra for all court work, including condemnation proceedings. The city attorney of Alhambra informs me that the city pays him on

an average of \$2,000.00 a year for all services.

The total sum of \$8,472.50 for all services, including litigation, for the period of fifty-nine months, is an average of \$143.65 per month, I furnishing stenographer, stationery and supplies, except as above stated.

During the time from August, 1912, to August, 1914, the City of Glendale was involved in quite a number of important matters of litigation concerning the fixing of water rates, regulation of service, valuation and purchasing of the plants. These actions were prosecuted against the city by some of the strongest law firms in Los Angeles county. It was necessary for me during this period to devote a major portion of my time to these matters, and I would welcome an investigation of my charges for services in these matters by any reputable lawyer of either the City of Glendale or Los Angeles, and his opinion as to the reasonableness thereof.

In all matters pertaining to the office of city attorney I have attempted to do my duty as I saw it, and stand for the interest of the city, without fear or favor, and the only purpose I have in making this statement is to let the people know the facts.

Sincerely yours,
W. E. EVANS.

CERTIFICATE

Business Under Fictitious Name

I, the undersigned, hereby certify that I am conducting business at No. 920 W. Broadway, Glendale, County of Los Angeles, State of California, under the firm name of The Glendale Evening News and said firm is composed of the following named person:

A. T. Cowan, whose address is 114 Orange street, Glendale, California.

A. T. COWAN.

STATE OF CALIFORNIA,
County of Los Angeles, ss.
City of Glendale.

On the 8th day of March, 1916, before me, Stella Smith, Notary Public in and for said county and state, residing therein, duly commissioned and sworn, personally appeared A. T. Cowan, known to me to be the person whose name is subscribed to the within instrument and acknowledged to me that he executed the same.

Witness my hand and official seal.
STELLA SMITH,
Notary Public in and for said County and State.
My commission expires May 7, 1918. 16914Wed

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF LOS ANGELES.

In the matter of the Estate of David Fairman Taber, Deceased, Notice is hereby given that the petition of Karoline Taber for the probate of will of David Fairman Taber, Deceased, and for the issuance of letters testamentary thereon to Karoline Taber will be heard at 10 o'clock a. m. on the 19th day of April, 1916, at the Court Room of Department 2 of the Superior Court of Los Angeles County, California.

Dated March 24, 1916.
H. J. LELANDE, Clerk.
By H. C. LICHTENBERGER,
Deputy Clerk.

James F. McBryde,
Attorney for Petitioner. 18311.

FIGHTING THE ANTS

In South Africa big guns are put to good use—that of exterminating ants, especially the termites, or warrior ants, which operate in wonderfully organized bodies. They live in a republic of their own, and are divided into classes of workmen and militia.

The workmen construct huge nests; the soldiers defend them and act as a police force; the queens are cared for by all the others. The ant heaps are often twenty feet high and pyramidal in shape. Cattle climb on them without crushing them. A dozen men could find shelter in some of their chambers, and native hunters often lie in wait inside them, when out after wild animals. This is after the nests have been deserted, of course.

The ants construct galleries, which are as large as the bore of a big cannon, and which run three or four feet underground. If human beings built houses in proportion to their size a working man would live in a dwelling as big as a pyramid in Egypt.

The warrior ants are highly destructive, and the only way to drive them is to go after them and their nests with guns loaded with grape shot, the muzzles of the cannon being inserted in the openings of the galleries.

KEEPER OF KEYS

Frederick Gear, expert mechanic, is guardian of more than 100,000 keys at the Vanderbilt Hotel in New York. His lockery is in the basement, far below the hurrying throngs. He has the responsibility of the locks of over 200 safe deposit boxes of the hotel office, where valuables of the guests are kept.

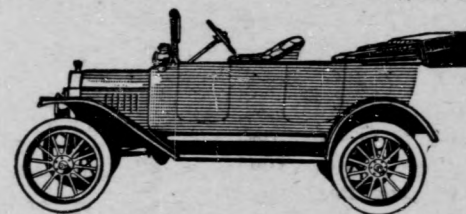

Odd tasks come to him. One morning a prominent American became locked in his room. Gear was the right man in the right place with the right key.

Ford
THE UNIVERSAL CAR

The largest shoe factory in the country makes less than one-fortieth of the entire shoe output, but the Ford Motor Company builds half of all the automobiles made in America. This volume is necessary to supply the demands of people who are looking for economy at a low cost. Get yours today! Runabout \$390; Touring Car \$440; Coupelet \$590; Town Car \$640; Sedan \$740. THE DAY IN ARGENTINE

The working day opens late in Argentine. Ten o'clock is considered a reasonable hour for a business man to think of beginning operations, and is preceded by a light breakfast. The first real meal is eaten at noon, and then business begins in earnest and lasts till after six o'clock, although the hide market does not open till four.

The dinner hour is usually about eight o'clock in the evening, and amusement and social affairs last ordinarily into the early morning hours, as the nights are cool and pleasant.

THE GREATER COMPLIMENT

Some one has said that it is a greater compliment to be trusted than to be loved. Affection sometimes lavishes itself on the unworthy, when the unworthiness is recognized. That is never true of trust. As soon as it finds that it has been misplaced, it dies.

You may be loved when you do not deserve to be, and when those who love you, know that you do not deserve it. But you cannot be trusted unless you deserve confidence, or at least you are believed to be worthy of confidence. There is no question which of the two is the greater compliment.

Self reliance in moderate doses gives rosiness to the sunrise of human energy.

CHINA'S POSTAL SYSTEM

Every sort of conveyance, modern and antiquated, is pressed into service by the postal authorities of China for transporting the mail, including steam and motor launches, junks, hong boats and ferryboats on the inland water ways, and mounted and foot carriers, mules, carts, and wheelbarrows on the highways.

Last year the number of miles covered by couriers was 136,000, an increase of 35,000 over the previous year. Over 7,000,000 parcels were handled.

Keeping under cover is a good thing for a criminal, but not for any one who has goods to sell. "Come out from under" and advertise in this paper.
